**Subject: Permit for marathon in Dimmuborgir**

The Environment Agency of Iceland has received an application from Ferðaskrifstofan Nonni ehf., dated 28<sup>th</sup> of May 2020, for changing earlier permit for marathon within protected areas around Mývatn.

Mývatn and Laxá area is protected according to act no. 97/2004. Permission from the Environment Agency of Iceland is needed for construction work and all activity that can affect wildlife, geological formations, vegetation and landscape in the area.

Dimmuborgir is protected as a natural monument, according to act no. 1262/2011. Disturbance to geological formations, vegetation and wild animal life in the protected area is prohibited. Events and commercial filming are subjected to a permit from the Environment Agency of Iceland.

Hverfjall (Hverfell) is protected as a natural monument, according to act no. 1261/2011. Disturbance to geological formations, vegetation and wild animal life in the protected area is prohibited. It's prohibited to walk outside of marked hiking trails. Permission from the Environment Agency of Iceland, landowners and Skútustaðahreppur municipality is needed for all construction work.

***Description of the project:***

Nonni travel on behalf of Albatros Adventure requested permit for marathon within protected areas around Mývatn on 25<sup>th</sup> of July 2020. The Environment Agency of Iceland issued permit for the marathon on 31<sup>st</sup> of October 2019 (UST201910-176). Due to the circumstances has it been decided to postpone the marathon to 24<sup>th</sup> of July 2021.

***Impact assessment:***

The Environment Agency of Iceland considers this change not likely to have negative impact on the conservation value of the area.

***Conclusions and conditions:***

The Environment Agency of Iceland hereby grants Ferðaskrifstofan Nonni ehf., permission on its behalf to have marathon run within Dimmuborgir and Hverfjall as described above on 24<sup>th</sup> July 2021 on the following conditions:

- Keep this letter with you on site during the project. The permit conditions should be introduced to the staff of the project before work begins.
- The applicant shall inform rangers in the area about their arrival and departure. This is to be done 24 hours before entering the area and again before leaving it.
- If the project dates or description changes the Environment Agency shall be notified as soon as possible.
- The crew must follow rules of conduct that apply to the area.
- Organizer of the event must fill in a report at least one week prior to the event/race starts with a schedule on how the event/race will take place. Information that need to be in the report is for example final number of contestants and how clean up of the event will take place.
- Contestants should show consideration to other guests are in the area when paths cross on site and on roads and paths where the event takes place.
- Organizers must inform participants on the importance of staying on marked race routes to prevent damage to fauna and geological formations.
- The maximum number of participants should not exceed 500. The condition of the area will be assessed after the run and an assessment will be made as to whether the number of participants has a negative impact on the natural environment.
- Runners should be informed that the race goes through protected area, which is protected by international agreements as well as protected nature reserves that are unique on a global scale.
- It is desirable to control running in such a way that runners are neither in Dimmuborgir nor at Hverfjall after 12:00. If this is not possible, the Environment Agency shall be informed
- Sign should be set up at the tourist attraction that inform guests that the race is going on.
- Final running path should be submitted to the Environment Agency specialist, or his deputy, and landowners.
- If temporary toilets are installed in sensitive areas, it should be done in consultation with the Mývatn Environmental Protection Agency specialist or his deputy.
- All disturbance to animals and wildlife is strictly prohibited.
- Off-road driving in Iceland is strictly prohibited.
- Organizers of the event are required to prevent all disturbance to the environment and must guarantee that no litter will be left behind at site and on race routes.
- All markings of the route must be removed as soon as the event is over.
- Crew members should stay on marked paths the whole time.

If the developer causes damage to nature, according to art. 87 in the Nature Conservation Act no. 60/2013, the Environment Agency of Iceland can, according to the Nature Conservation Act, f.e. order the licensee to fix damage to nature and vegetation and/or stop the project.

The Environment Agency of Iceland can according to art. 89 in the Nature Conservation Act no. 60/2013 change conditions of the permit, add new conditions or withdraw the permit in order to prevent damage to nature if environmental conditions change.

According to art 89. in the Nature Conservation Act no. 60/2013 the Environment Agency can withdraw the permit if conditions of the permit are not complied to.

**A permission from the landowners and/or the municipality and the Icelandic Road and Coastal Administration might be needed for the project.**

***Permission fee:***

Environment Agency of Iceland has already charged a fee for processing this application.

***Supervision:***

The Environment Agency will supervise the project. The supervisor will be a ranger from the Environment Agency.

Sincerely
