Subject: Request for filming in Hornstrandir nature reserve

The Environment Agency of Iceland has received your request, dated 6th of February, for bringing two filming groups and two photographers into the nature reserve of Hornstrandir for filming and photographing the Icelandic fox. The trips to Hornstrandir are expected to take place the 14th of March (Horn í Hornvík) and the 19th of March (Hesteyri). The trip to Hornvík is estimated to last for 6-10 days and the trip to Hesteyri 5-8 days.

Hornstrandir is a protected nature reserve since 1975 and according to the conservation agreement, the Environment Agency is in supervision of the reserve. In the conservation agreement it is stated that it is prohibited to harm wildlife and geological features.

The Environment Agency of Iceland hereby informs you that since your request does not include any threat of harming the wildlife nor geological features within Hornstrandir nature reserve, a permission from the Agency is not needed.

The Environment Agency wishes you a pleasant and successful trip to Hornstrandir.

Yours sincerely

Jón Björnsson
