Subject: Permit to photograph in Fjallabak Nature Reserve

The Environment Agency of Iceland has received a request from Ivo Corda, dated 22nd of July 2015, to photograph within the Fjallabak Nature Reserve, from 28th - 30th of July 2015.

Fjallabak is a nature reserve. Disturbance to geological formations, vegetation and wild animal life in the protected area is prohibited without permission from The Environment Agency of Iceland. It is prohibited to bury or leave waste in the reserve.

Description of the project:

The plan is to photograph a model standing next to a car, on a road that is situated within the Fjallabak Nature Reserve (road 208), for one day on the period from 28th – 30th of July 2015, depending on the weather. The project consists of 15 people, three to four jeeps, one car and one truck. There will be no need to go off paths, use props and no need restrict traffic on the roads according to the application.

The Environment Agency, for its part, hereby grants Ivo Corda permission to photograph within Fjallabak Nature Reserve according to his application. The permit is subjected to the following conditions:

- This permission is granted for the period of 28th – 30th July 2015.
- The Environment Agency requests that the applicant contacts the ranger working in the area with at least one day notice and informs him on exact location and timing of the shooting. (Please contact Jón Björnsson, 8224056)
- Every measure should be taken to avoid damage to the sites and unnecessary disturbances. Please make sure that you do not block the road and ensure not to endanger road safety in the area.
- If you need to restrict traffic or close the road, even if it is only for a short time, do it in consultation with the police (rls@rls.is) and Vegagerðin (1777 – vegagerdin@vegagerdin.is).
- Keep the signed permit letter with you.
- Off-road driving is strictly prohibited and is punishable by fines or imprisonment. Do not park cars off-road.

Sincerely

Gunnlaug H. Einarsson
