Enforcement of Biocidal Products - Final Decision and Case Closure

The Icelandic Environment and Energy Agency (Umhverfis- og orkustofnun) refers to its letter dated 19 February 2026 regarding inspection findings and requirements for corrective actions concerning the biocidal products Tri-Fender™ and Dipal™ Conc.

The authorisation holder, DeLaval NV, has submitted updated labels for the biocidal products, that the Agency approves. DeLaval NV also submitted proof that the updated label is already in use and informed the Agency that relabelling of existing stocks is ongoing. The Agency hereby confirms that no further action is required and the case is considered closed.

A fee for the enforcement activities will be collected in accordance with Article 22 of the Agency's list of fees No 1033/2025 and Article 54(2) of the Icelandic Chemicals Act No 61/2013. An invoice will be issued in the amount of ISK 56.000 (approx. EUR 390).

If further information is required, please contact us via email (hafdis.i.ingvarsdottir@uos.is or bergdis.b.baeringsdottir@uos.is).

Yours sincerely,

Hafdis Inga Ingvarsdóttir
Chemicals Unit
